## FULL STACK DEVELOPER

✉ abbassalman813@gmail.com ☎ +91-9310661019 🔗 [linkedin.com/in/salmanabbas](https://www.linkedin.com/in/salmanabbas)

### PROFESSIONAL SUMMARY

Results-driven **MERN Stack Developer** with a frontend-first approach and deep JavaScript fundamentals. Proven ability to architect and deliver **responsive, scalable web applications** from concept to deployment. Experienced in building full-stack ecommerce platforms with authentication, real-time data handling, and RESTful API integration. Passionate about crafting **modern UI/UX experiences** and solving complex problems through clean, maintainable code. Eager to contribute to high-impact engineering teams at leading tech companies and startups.

### TECHNICAL SKILLS

|                 |                                                                                |                |                                  |
|-----------------|--------------------------------------------------------------------------------|----------------|----------------------------------|
| <b>Frontend</b> | HTML5 • CSS3 • Bootstrap • Tailwind CSS • JavaScript (ES6+) • React.js • Redux | <b>Backend</b> | Node.js • Express.js • REST APIs |
| <b>Database</b> | MongoDB • MySQL                                                                | <b>Tools</b>   | Git • GitHub • Postman • Vercel  |

### EXPERIENCE

#### Full Stack Developer Intern

May 2026 – July 2026

Oxford Software Institute, New Delhi

- Architected and built **ElectraX**, a full-featured ecommerce platform using the MERN Stack, handling **100+ product SKUs** with real-time inventory updates
- Implemented end-to-end modules including product listing with advanced search/filtering, JWT-based authentication, and persistent cart management — **reducing checkout friction by 40%**
- Engineered **fully responsive UI** across mobile, tablet, and desktop breakpoints using Tailwind CSS, achieving **Lighthouse mobile score of 92+**
- Designed and integrated **RESTful APIs** with MongoDB aggregation pipelines for dynamic product catalog management, cutting data fetch latency by **35%**
- Optimized frontend performance through code splitting, lazy loading, and image optimization, **improving page load speed by 50%** and boosting user retention

### PROJECTS

#### ElectraX Ecommerce Platform

MERN Stack

- Full-stack ecommerce solution with JWT authentication, session-based cart, and admin product management dashboard
- Responsive design with mobile-first approach; integrated Stripe-ready payment flow architecture

#### Contact Management Application

Vanilla JavaScript

- Built performant CRUD operations with zero external dependencies using advanced DOM manipulation techniques
- Implemented local storage persistence with data validation, ensuring **100% data integrity** across browser sessions

#### Medix Healthcare Website

React.js

- Developed a healthcare platform with appointment booking system, service catalog, and doctor profiles using React Hooks
- Delivered pixel-perfect mobile responsive UI with **smooth animations** and accessibility-compliant navigation

### EDUCATION & CERTIFICATIONS

#### Bachelor of Arts (BA)

Indira Gandhi National Open University (IGNOU)  
2024 – 2028 (Pursuing)

#### Full Stack Development Certification

Oxford Software Institute  
Completed 2026
